New England Mutual Life Ins.,
Of Boston, Mass., Chartered in 1843.
Capital and accumulation, \$650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be peculiarly interested in the company, and they give their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, etc., from one to five years, at lower rates than for other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTER FROM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

CHIP'S
CELEBRATED WORMWOOD CORDIAL.

THE subscriber in introducing this valuable temperance beverage, would respectfully call the attention of the public to the fact, that it is prepared from green Wormwood, an herb that grows luxuriantly in the New England States, the medicinal qualities of which, for the regulation of the stomach and blood, cannot be equalled by anything ever used. It is a sure cure and preventive of Fever, Ague, Dyspepsia, Diarrhea, and all diseases arising from impurities of the blood or inaction of the stomach. Try it.

A STORE FOR SALE OR TO LET.
THE STORE and a Lot of ground known as Lot No. 8, on Block No. 1, in the village and township of FULTON, Rock County, on the Catholic, near its confluence with Rock river, 11 miles northwest of Janesville.

The building is well calculated for a country store, being 28 feet front by 28 feet deep, and finished off above into convenient apartments either for a family or for offices, all in good condition.

The whole has been occupied for three years past by Messrs. T. E. and G. G. Green, as a store and dwelling, and being situated immediately opposite the Gristmill, is considered the best location for business in the village. The lot is two rods front by about seven rods deep.

This property will be sold or let on reasonable terms, and possession given immediately. For particulars enquire of NILLS & SATRE, Fulton, or LEVI ALDEN, Janesville. 48

THIS Company is one of the oldest, and among the most prudent and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of the losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested in the company, and they give their personal attention, and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years; at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, and thereby being less burdened than any other, consequently you will have no losses out of your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by letter, and the best of references given as to the responsibility of the company.

MEMPHIS MONEY.

As some of this money is afloat in this vicinity, and fears are entertained that holders will suffer loss by it, we publish the following from the New York Journal of Commerce of Thursday last. We know nothing of the pecuniary responsibility of the bank, and persons holding its notes will judge for themselves as to the policy of disposing of them at a material discount. Still, we think we should hold on for a while, and see whether it will be necessary to sell at much of a loss.

"The Farmers' and Merchants' Bank of Memphis, which has had some credit in this vicinity, owing perhaps to the presence of the president, is in trouble." Mr. John Thompson refused to purchase its bills at any price, this afternoon, as the writer hereof can testify, having made application at his counter. It appears that the bank has been in the habit of loaning its bills to the Wisconsin and Indiana banks for circulation, they agreeing each to protect its own share of the issues. This compact some of them have not kept, and quite a batch were returning here for redemption, and found the agent somewhat unprepared. We have no doubt but the agency will be going again in a few days, and the holders of the notes, if there are such who read our paper, had better not sacrifice them. We do not mean to say that payment has been stopped at the counter of the Bank, in Memphis, Tenn., and we suppose that all the bills presented there will be duly honored."

CHILD KILLED ON THE RAILROAD.—The Milwaukee Sentinel of yesterday gives the particulars of an accident near Eagle, resulting in the death of a little girl about 14 years old, by being run over by a railroad train. The train was a heavy one and the girl was on the centre of the track. She was dead and dumb and was not seen by the engineer until the train was too close to be effectually stopped. Her father resides at Eagle and had sent her to the store in returning from there she was killed.

WHO WOULDN'T BE A FATHER.—The Union Telegraph of Thursday evening, contains the following brief but ominous paragraph: "Ea! ha! ha! 'It's a girl!'"

THE ISSUE FAIRLY OFFERED.—In Illinois, where the "democracy" feels itself able to carry out its designs without disguise or equivocation, no attempt is made to dodge or deny the issues growing out of the Nebraska bill. Here the gambler is openly thrown down, and the opponents of the perjury which has aroused the country are tauntingly defied to take it up. This brings the contest to its right bearings, and if the authors and abettors of that perjury are sustained, we shall know precisely what the result means, and the party thus openly entering the field will be fairly entitled to the benefits of the victory. So, too, if the defiant party is beaten, and its chosen leaders stricken down, there can then be no attempt to attribute its defeat to other causes than those which led to its downfall. In this view, we record with much satisfaction the proceedings of the convention which re-nominated Col. Richardson, who, as chairman of the territorial committee in the house of representatives, reported and carried the Nebraska bill to its passage. These proceedings are thus given by the Pittsfield Union:

Yesterday (16th inst.) about 10 o'clock the convention assembled and organized. At that time there were only three names before the convention—Richmond, Morris and Richardson.—In the afternoon they met, and these three gentlemen, together with Dr. Stuphlin, were put in nomination. The latter gentleman, and also Mr. Morris immediately arose and declined running—thus leaving a clear field to Richmond and Richardson. Col. Richardson was nominated on the first ballot, receiving 74 votes, and his competitor 15. We design in our next to publish the proceedings in full. We have only room and time now to say that the deliberations of the convention were very harmonious. Morris immortalized himself by the self-sacrificing spirit which he exhibited. The convention endorsed the Nebraska question in all its length and breadth. We now, and here, again throw down defiantly the Nebraska glove, and dare the whig leaders and whippersnappers to take it up.—They have boasted they could beat us to death on the Nebraska question. We hope their valor will not now forsake them; but that they will present a bold front and meet us like men, on the stump, and in the public journals. Let them now make good their assertions, or else swallow their words.

The Milwaukee Sentinel has not yet learned the name of the Valley railroad, though it has been talking about it for years. Guaged by its accuracy as to the name, the Sentinel's minute information as to its affairs must be very reliable.

The New York Tribune recommends the election of Fred Douglas as the successor of Gerrit Smith, in the Oswego and Madison congressional district. This is a high compliment to Mr. Smith, and we presume he will so regard it. The electors of that district will probably feel equal to the task of judging for themselves in the matter; and if they have no white man fit for the place, may prefer a negro of their own, instead of going to Monroe county for one.—Buff. Com. Adv.

If the choice lay between Fred and Stephen A. Douglass, we should have no hesitation in taking the former, and we are not sure that the election of Fred, in any case, would be a well deserved rebuke to the "democracy," for their rascality and folly in outraging and defying the sentiment of the entire north.

RAILROAD COMBINATION.—We understand that the Michigan Southern and Michigan Central railroads have entered into a combination to dispense with the services of agents and runners. The offices of the two companies in this city will be closed immediately, and passengers must purchase their tickets on the boats, or at the ticket offices in Chicago.—Wiz.

A similar change is in contemplation with the offices of the Michigan roads in this city; but Mr. Goodwin, the ticket agent of the Chicago and Galena road, will sell tickets for either the Central or Southern route. This arrangement, we understand, is in accordance with the decision of the New York railroad meeting, and is designed to lessen the expenses of the roads represented and acting in that meeting. All runners are to be dispensed with. Mr. Goodwin has his office at the American Hotel, to which house the stage office for this city has been removed.

THE ALGERINES.—The exhibition at Apollo Hall Tuesday evening well repaid those who attended. Another will be given this evening, with a change of performance, not the least attractive of which will be the promised supply of ice cream, from nothing. If this feat is successfully accomplished, we suggest to Mr. Francis that he try his hand at a change of the weather, and the production of a good cooling shower of rain. We will find no fault at a deception in this matter, if it is as well executed as the remainder of his feats.

ARCHBISHOP HUGHES.—The Saratoga correspondent of the New York Times, writes: Archbishop Hughes is here, but is too late for congress water to renew his youth. He will soon go the way of all living. He is a sensible and very shrewd looking man.

ARRIVAL.—Kenyon's new hats arrived yesterday, and are now ready for purchasers.—They are a No. 1 article.

DEMOCRACY IN CINCINNATI.—We published a day or two since, the resolutions of the democracy of the Third ward in Cincinnati, condemning in strong terms the Nebraska inquiry. Since the passage of those resolutions, the counter-convention has been held, and from the published proceedings, we should judge that it broke up in the wildest disorder. Charles Remond, a German democrat, one of the chief ornaments of the party in Ohio, a high minded, consistent and honorable man, and a republican, was chased from the ground, by a band of ruffians, who have determined that free discussion of the great question now before the people, shall be stifled, if necessary, by violence. One thing however, the delegates did not dare to endorse—that is Douglas' Nebraska bill. Carry on gentlemen! The day of reckoning is not far off!—Galena Jeffersonian.

MARRIAGE IN IRELAND.—The fourth report of the register general of marriage in Ireland, has just been published in a parliamentary paper. It appears that in 1853 there was 10,197 marriages in Ireland, 1,255 widowers, and 700 widowers re-married.

The commonwealth thinks it doubtful whether Mr. Porter of Missouri, will vote to restore the Missouri compromise. Unless the commonwealth knows better than that gentleman, himself, there is no doubt whatever on this point. Mr. Porter, on the stump, publicly declared himself in favor of its restoration, and was on that account deserted by a few of the pro-slavery whigs and supported by the anti-Nebraska democrats.—Boston Atlas.

The Atlas also replies to a paragraph in the Post, as follows:

The Post is slightly exercised, because, as it states, some of the whig papers omit to mention that Mr. Lindsey voted for the Nebraska bill. The Post itself is guilty of a yet more serious omission in not stating that Mr. L. publicly declared himself opposed to the Nebraska bill, that the only vote for it in the belief that he reflected the wishes of his constituents, and that he would vote against it if but a single whig from Missouri would vote with him. On account of his known personal repugnance to the outrage, he received the support of the anti-Nebraska democracy, and by their votes has been chosen, as the following tables show. If the Post considers this a Nebraska triumph, it is either very perverse or very stupid.

A "WEDDED MAID."—The Syracuse Standard furnishes the lovers of the romantic with this nice tit-bit:

At Clifton Springs a short time since, a gay party was assembled—among them Miss M., of Buffalo, and Frank N., of Syracuse. In the course of the evening the gaiety began to flag, and some one proposed a marriage. Up sprang the gay young Miss M., and expressed a willingness to be the bride. She was followed by Frank N., who joyfully consented to be the groom. A young gentleman present, who sometimes deals in jewelry, and is well known in Syracuse circles, performed the ceremony; and the merry couple made the usual responses.

After the ceremony was over, the groom gave his bride to understand that he considered it binding. She demurred, and started for her home at Buffalo; the baffled bridegroom following, and presenting his claim at the house of her father, he was sent about his business, with some striking specimens of parental indignation from the lady's father. Matters at present are in statu quo, and the lovely damsel remains a "wedded maid." The gentleman claims her as his lawful wife, and her relatives deny the claim.

The crystal palace directors held a meeting on Friday last, and authorized their president to sell the entire palace and all the property of the association, deliverable on or after the 1st of November next, for one half its actual cost, which is understood to have been about 700,000 dollars.

Competent engineers and architects have decided that the palace could be taken down, removed to the battery, and put up again for \$50,000 or less. Hence it could be taken down, moved to Philadelphia or Boston, and put up there for less than \$75,000, all told.

It is estimated that selling the property of the association even at the great sacrifice proposed, the stockholders will realize from 20 to 30 per cent, allowing that nothing is made the present fall; but, as the receipts at the palace are fully equal to the expenses, it is believed that the extraordinary attractions to be put forth there from this time to the day of its close, on the 1st of November next, and the great influx of strangers expected in our city, who will visit the palace because it will be the last opportunity of seeing it, will return a profit which will benefit the stockholders materially.

Philadelphia and Boston are both agitating the plan of removing the palace to their respective cities. Goods and machinery are coming into the palace daily in enormous quantities, and its present appearance, since the recent thorough renovating which it has undergone, is as attractive and beautiful as at any former period.—N. Y. Express.

MR. NOLTE'S COTTON AT THE BATTLE OF NEW ORLEANS.—On the morning after our retreat from the plantation of Villere, where we had attacked the British on the preceding evening, attempts, as I have already stated, were made to throw up a breast-work along the Macarty canal. The whole soil, in that neighborhood, consists of soft marshy ground, and when you have dug to the depth of three feet, you find nothing but mud and water. Hence, when the effort was made to make an entrenchment around the camp, and to erect the five or six redoubts which were to have been raised along the Macarty canal, the mininess of the soil rendered all exertions utterly fruitless. A French engineer then suggested to Jackson the idea of filling up the hollowed redoubts with cotton bales, laid to the depth of three or four, one above the other; the wooden platforms which were to sustain the heavy cannon which had been dragged from the arsenal could then be placed upon the cotton, and there secured, while the crenellated openings on both sides of the redoubt could be constructed with six or eight bales fastened to the main body of the redoubt by iron rings, and covered with adhesive earth. After the retreat of the English, we heard that they had thought of a similar device; but, as they could find no cotton, they had used the sugar in casks which they had picked up on various plantations. Jackson, who at once adopted the plan, was anxious to lose no time. It was intimated to him that in the city he could procure plenty of cotton at from 7 to 8 cents per lb.; but, that it would take a whole day to bring it to the spot; he was then told that not far from the camp, and in the rear of his position, there lay a bark in the stream laden with cotton, for Havana; the name of this vessel was the Pallas, unless my memory, after the lapse of 38 years, deceives me, and she was to have sailed before the arrival of the British. Her cargo consisted of 245 bales, which I had shipped previous to the invasion, and the remainder, 60 bales, belonged to a Spaniard, named Fernando Alzar, resident at New Orleans. It was only when the cotton had been brought to the camp, and they were proceeding to lay the first bales in the redoubt, that the marks struck my attention, and I recognized my own property. Adj. Livingston, who had been my usual legal counsel at New Orleans, that same evening inspected battery No. 3, where the men were arranging some bales. I was somewhat vexed at the idea of their taking cotton of the best sort, and worth from 10 to 11 cents, out of a ship already loaded and on the point of sailing, instead of procuring the cheaper kind, which was to be had in plenty throughout the suburbs of the city, at 7 or 8 cents, and said as much to Livingston. He who was never at a loss for a reply, at once answered: "Well, Mr. Nolte, if this is your cotton, you, at least, will not think it any hardship to defend it."

A NEW ENGLAND TOWNSHIP IN IOWA.—The Rev. Josiah Grinnel, late of New York city, with a number of New England people, has purchased thirty or forty thousand acres of land in Iowa, about half way between Davenport and Iowa city, and commenced the work of building an enterprising town, one that shall possess the moral and religious characteristics of New England. The town is named Grinnel, and is within the county of Poweshiek.

ONLY A CHILD.—"Who is to be buried here?"

Only a child! "Only a child, ma'am." Only a child! Oh! had you ever been a mother—had you nightly pillowed that little golden head—had you deputed the sweeter for that little velvet hand upon your breast—had you waited for the first intelligent glance from those blue eyes—had watched its slumbers, tracing the features of him who stole your girlish heart away—had you wept a widow's tear over its unconscious head—had you desolate, timid heart gained courage from that little piping voice to wrestle with the jostling crowd for daily bread—had its loving smiles and prattling words been sweet recompense for such sad exposure—had the lonely future been brightened by the hope of that young arm to lean upon, that bright eye for your guiding star—had you never framed a plan or known a hope or fear, of which that child was not part.

If there was naught else on earth left for you to love—if disease came, and its eyes grew dim; and food and rest, and sleep were forgotten in your anxious fears—if you paced the floor hour by hour, with that fragile burden, when your very touch seemed to give comfort and healing to that little quivering frame—had the star of hope set at last—then, had you hung over its dying pillow, when the strong breast you should have wept on was in the grave, where your child was hastening—had you caught alone, its last faint cry for the "help" you could not give, had its last fluttering breath breathed out on your breast—Oh! could you have said—'Tis only a child!

FANNY FERN.

FINANCIAL PROSPECTS.—We have seen the worst of the panic, though we have not seen yet the last of the failures. Stocks, we think, have reached the bottom. The movement of produce will soon give relief to the country banks by taking out their currency. The adjournment of congress is a long desired event. The various appropriations will now throw a large amount of gold into circulation and help greatly to strengthen the mercantile and banking interests of the country. On the whole, there is good ground for cheering; there is, however, wisdom in prudence, in caution—not giving long or large credits—not extending beyond control, for these are revolutionary times, uncertain times, and the wisest cannot see far into the future.—Thompson's Reporter.

EARLY CORN MEAL.—Much to our surprise, our friend, Mr. N. Riker, of Watertown, laid upon our table, on Wednesday last, a small bag of corn meal, just ground from new corn, and also specimens of the corn from which it was made. The 14th of August is very early for corn to ripen enough to grind. The specimens sent had eight rows, of a dark yellow color, shelling readily from the cob, and as hard as corn in October. If any Wisconsin farmer can beat Mr. Riker, we would like to hear of it.—Watertown Register.

The Tonawanda (N. Y.) Pilot gives an account of a fearful accident and narrow escape which occurred in that village on Tuesday last. It appears that a child eighteen months old, son of Dr. F. A. Hoyer, was discovered on the railroad track opposite his residence, as the three o'clock train for Lockport came round the curve leading on to the old military road. Every means was used to break up without full success, when the cow catcher caught the child by a portion of its clothing, and threw it some ten feet from the track, without doing it any material injury! The child had not been out of the house five minutes, and was not missed by its mother, until taken in, somewhat stunned by the concussion, the only perceptible injury being a slight bruise on its forehead. The officers on the train deserve the greatest credit for their efforts. The train was stopped and did not proceed until the extent of the injury was fully ascertained.

CHOLERA IN JAIL.—On Sunday night last there were six cases of cholera in the jail. Mr. Conover, the jailor immediately removed them from their places of confinement to the hall, where they were provided with prompt medical attendance, and with all the comforts which the circumstances called for. We understand there were forty prisoners in jail at the time, which is presumed to be more than the building can conveniently accommodate. Ten prisoners were let out on parole.

Last evening, at half past 7 o'clock, Charles Steffenhager died. Patrick Drum died this morning. Thus only two have died out of six that were taken down with the disease. There have been no new cases to-day. Those that are now sick are considered out of danger.—Mil. News.

Henry A. Wise, who has just been nominated as the lococo candidate for governor of Virginia, says he is in favor of the Nebraska bill because it "repels the Missouri compromise and fortifies slavery." That was the purpose of the swindle, and for that reason it deserves and is receiving the execration of the people. Nevertheless, its ultimate effect may be very different from what its authors designed. If Kansas shall be saved to freedom—as it may be—and if by Nebraska shall, as is quite probable, become a free state by general consent, slavery will have been but miserably "fortified" by this outrageous enactment. The encouragement of free emigration to Kansas is now the great leading practical duty of the north. If this duty is effectually discharged the discomfited propagandists will howl with rage in less than a twelvemonth.—Alt. Jour.

The Sentinel makes the result of the recent election in Missouri, (excepting the defeat of Benton,) a theme of special glorification. Six out of seven representatives of that state, says the Sentinel, are whigs—a "glorious victory." But still it disguises the fact that every one of the congressmen, elect, is a very decided advocate of the principles embraced in the Nebraska bill.—Daily News.

Such is not the fact. On the contrary, two at least of the whig congressmen elected, Potter and Lindley, are very decided opponents of the principles of the Nebraska bill. We do indeed hail their election as a "glorious victory"—the rest we are content to call an administrative defeat.—Mil. Sent.

THE MILLERITE DELUSION.—The Salem Gazette says: "The sect of Millerites, worshipping in this city, who hold that Christ will come to judge the world before the year 1854 expires, have made quite a number of converts, and baptised them, within the last few months. A gentleman who has held an important office in our community, within a year or two, was baptised on Sunday last.

A pump has been invented by Henry Rogers, of Addison, Vt., which beats anything we have yet seen in the line of simple but efficient pumps. By this pump the animal which desires to drink must raise its own water. The improvement consists in placing a cylinder, filled with a piston, at the bottom of the well, the piston rod being hollow, and connected with a basin and moveable platform at the top. The animal approaches and steps upon the platform, causing it to sink a few inches, which pushes down the piston rod into the basin. After the animal has drunk, the water flows back to the well, so that it can never freeze. We derive these facts from the People's Journal.

THE MARKETS.

JANESVILLE, WEDNESDAY EVENING, AUG. 23.
Prices have fluctuated a good deal to-day, and the market closed at lower rates than the morning. But one load of inferior winter wheat came in, and that sold at a lower figure than a good article would have commanded. Club may be quoted at 1.13 to 1.23%; Corn, 47c50; Barley, 48c50; Oats 24.
MILWAUKEE, WEDNESDAY MORNING, AUG. 23.—Wheat, winter, 1.25c1.27; club, common spring, 1.30c1.35; Rye, 79c50; Oats, 20c51; Barley, 53c55; Corn, 67c58;

Something New!!

MR. CHARLES AUSTIN, the celebrated Reed maker has just completed his new Organ Reed, upon which he has labored for the last five years and expended more than six thousand dollars. This reed is different from all others in its composition, being made of a larger size and more power. It is intended for Church and Parlor Organs manufactured by Messrs. Austin & Co. These Organs have an upright (Organ) action and are of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. To churches in want of an instrument of that value we would say that they have more power than any common Organ costing \$500.

J. F. Pease & Co., Janesville Wis., are interested in the manufacture and sale of these instruments, and are the only persons through whom they can be had. They will have one or more for exhibition as early as Sept. 10, and after that a good assortment as soon as they can be manufactured.

ROCK COUNTY REPUBLICAN CONVENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 13th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. M., to nominate a county ticket.

The towns and wards will be entitled to representation in the county convention as follows:—to wit:

Town or Ward	Representatives
Avon	3
Beloit	10
Bradford	4
Center	4
Clinton	5
Pulaski	5
Harmony	4
Johnston	4
La Prairie	8
Janesville, town	8

E. VINCENT, County Committee.

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Monroe, Polk, Pierce, Trempealeau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglas and La Pointe, who are opposed to the Nebraska inquiry, and in favor of the principles announced in the "Republican Platform" adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 18th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committee, WM. A. WHITE, Chairman.

Madison, August 14.

Assembly District Conventions—Rock County.

The electors of Rock county who are opposed to the Nebraska inquiry and in favor of the principles announced in the Republican platform adopted at Madison, July 18th, are requested to meet in MASS CONVENTION at the places designated below in their respective assembly districts, at 2 o'clock P. M. and select two delegates from each assembly district to represent them in the Congressional Convention called at Mineral Point on the 18th of September. The Convention for the

Janesville, &c., District is appointed at the Court House in Janesville.

Beloit, &c., District, at the office of Samuel Homan Esq. in the new Hotel building, Beloit.

Madison, &c., District, at Johnson's Hotel, Johnsonville.

Every elector who desires a true man to represent this District in the National Legislature, should feel an interest in promoting a full attendance at the Mass Conventions and in securing a full representation from his District in the Congressional Convention.

MEMPHIS MONEY.—As some of this money is about in this vicinity, and fears are entertained that holders will suffer loss by it, we publish the following from the New York Journal of Commerce of Thursday last. We know nothing of the pecuniary responsibility of the bank, and persons holding its notes will judge for themselves as to the policy of disposing of them at a material discount. Still, we think we should hold on for a while, and see whether it will be necessary to sell at such of a loss.

"The Farmers and Merchants' Bank of Memphis, which has had some credit in this vicinity, is now in trouble. Mr. John Thompson refused to purchase its bills at any price, this afternoon, as the writer here can testify, having made application at his counter. It appears that the bank has been in the habit of loaning its bills to the Wisconsin and Indiana banks for circulation, they agreeing each to protect its own share of the issues. This compact some of them have not kept, and quite a batch were returning here for redemption, and found the agent somewhat unprepared. We have no doubt but the agent will be going again in a few days, and the holders of the notes, if there are such who read our paper, had better not sacrifice them. We do not mean to say that payment has been stopped at the counter of the Bank, in Memphis, Tenn., and we suppose that all the bills presented there will be duly honored."

CHILD KILLED ON THE RAILROAD.—The Milwaukee Sentinel of yesterday gives the particulars of an accident near Eagle, resulting in the death of a little girl about 14 years old, by being run over by a railroad train. The train was a heavy one and the girl was on the centre of the track. She was deaf and dumb and was not seen by the engineer until the train was too close to be effectually stopped. Her father resides at Eagle and had sent her to the store: in returning from there she was killed.

WHO WOULDN'T BE A FATHER.—The Utica Telegraph, of Thursday evening, contains the following brief but ominous paragraph:—
"It's a girl!"

THE ISSUE FAIRLY OFFERED.—In Illinois, where the "democracy" feels itself able to carry out its designs without disguise or equivocation, no attempt is made to dodge or deny the issues growing out of the Nebraska bill. Here the gambler is openly thrown down, and the opponents of the perfidy which has aroused the country are tauntingly defied to take it up. This brings the contest to its right bearings, and if the authors and abettors of that perfidy are sustained, we shall know precisely what the result means, and the party thus openly entering the field will be fairly entitled to the benefits of the victory. So, too, if the defiant party is beaten, and its chosen leaders stricken down, there can then be no attempt to attribute its defeat to other causes than those which led to its downfall. In this view, we record with much satisfaction the proceedings of the convention which re-nominated Col. Richardson, who, as chairman of the territorial committee, in the house of representatives, reported and carried the Nebraska bill to its passage. These proceedings are thus given by the Pittsfield Union:

Yesterday (18th inst.) about 10 o'clock the convention assembled and organized. At that time there were only three names before the convention—Richardson, Morris and Richardson. In the afternoon they met, and these three gentlemen, together with Dr. Stephen, were put in nomination. The latter gentleman, and also Mr. Morris immediately arose and declined running, thus leaving a clear field to Richardson and Richardson. Col. Richardson was nominated on the first ballot, receiving 74 votes, and his competitor 15. We design in our next to publish the proceedings in full. We have only room and time now to say that the deliberations of the convention were very harmonious. Morris immortalized himself by the self-sacrificing spirit which he exhibited. The convention endorsed the Nebraska question in all its length and breadth. We now, and here, again throw down defiantly the Nebraska glove, and dare the whig leaders and whig supporters to take it up. They have boasted they could beat us to death on the Nebraska question. We hope their valor will not now forsake them; but that they will present a bold front, and meet us like men, on the stump, and in the public journals. Let them now make good their assertions, or else swallow their words.

The Milwaukee Sentinel has not yet learned the name of the Valley railroad, though it has been talking about it for years. Guaged by its accuracy as to the name, the Sentinel's minute information as to its affairs must be very reliable.

The New York Tribune recommends the election of Fred. Douglas as the successor of Gerrit Smith, in the Oswego and Madison congressional district. This is a high compliment to Mr. Smith, and we presume he will so regard it. The electors of that district will probably feel equal to the task of judging for themselves in the matter; and if they have no white man fit for the place, may prefer a negro of their own, instead of going to Monroe county for one.—Buff. Com. Adv.

If the choice lay between Fred and Stephen A. Douglass, we should have no hesitation in taking the former, and we are not sure that the election of Fred, in any case, would be a well deserved rebuke to the "democracy," for their rascality and folly in outraging and defying the sentiment of the entire north.

RAILROAD COMBINATION.—We understand that the Michigan Southern and Michigan Central railroads have entered into a combination to dispense with the services of agents and runners. The offices of the two companies in this city will be closed immediately, and passengers must purchase their tickets on the boats, or at the ticket offices in Chicago.—WV.

A similar change is in contemplation with the offices of the Michigan roads in this city; but Mr. Goodwin, the ticket agent of the Chicago and Galena road, will sell tickets for either the Central or Southern road. This arrangement, we understand, is in accordance with the decision of the New York railroad meeting, and is designed to lessen the expenses of the roads represented and acting in that meeting. All runners are to be dispensed with. Mr. Goodwin has his office at the American Hotel, to which house the stage office for this city has been removed.

THE ALGERINES.—The exhibition at Apollo Hall Tuesday evening well repaid those who attended. Another will be given this evening, with a change of performance, not the least attractive of which will be the promised supply of ice cream, from nothing. If this feat is successfully accomplished, we suggest to Mr. Francis that he try his hand at a change of the weather, and the production of a good cooling shower or rain. We will find no fault at a deception in this matter, if it is as well executed as the remainder of his feats.

ARMISTICE HUGHES.—The Saratoga correspondent of the New York Times, writes: Archbishop Hughes is here, but is too late for congress water to renew his youth. He will soon go the way of all living. He is a sensible and very shrewd looking man.

ARRIVAL.—Kenyon's new hats arrived yesterday, and are now ready for purchasers.—They are a No. 1 article.

DEMOCRACY IN CINCINNATI.—We published, a day or two since, the resolutions of the democracy of the Third ward in Cincinnati, condemning in strong terms the Nebraska inquiry. Since the passage of those resolutions, the county convention has been held, and from the published proceedings, we should judge that it broke up in the wildest disorder.—Charles Remelin, a German democrat, one of the chief ornaments of the party in Ohio, a high minded, consistent and honorable man, and a republican, was chased from the ground, by a band of ruffians, who have determined that free discussion of the great question now before the people, shall be stifled, if necessary, by violence. One thing however, the delegates did not dare to endorse—that is Douglas's Nebraska bill. Carry on gentlemen! The day of reckoning is not far off!—Galena Jeffersonian.

MARRIAGE IN IRELAND.—The fourth report of the register general of marriage in Ireland, has just been published in a parliamentary paper. It appears that in 1853 there was 10,197 marriages in Ireland, 1,265 widowers and 700 widows re-married.

The commonwealth thinks it doubtful whether Mr. Porter of Missouri, will vote to restore the Missouri compromise. Unless the commonwealth knows better than that gentleman, himself, there is no doubt whatever on this point. Mr. Porter, on the stump, publicly declared himself in favor of its restoration, and was on that account deserted by a few of the pro-slavery whigs and supported by the anti-Nebraska democrats.—Boston Atlas.

The Atlas also replies to a paragraph in the Post, as follows:

The Post is slightly exercised, because, as it states, some of the whig papers omit to mention that Mr. Lindley voted for the Nebraska bill. The Post itself is guilty of a yet more serious omission in not stating that Mr. L. publicly declared himself opposed to the Nebraska bill, that he only voted for it in the belief that he reflected the wishes of his constituents, and that he would vote against it if but a single whig from Missouri would vote with him. On account of his known personal repugnance to the outrage, he received the support of the anti-Nebraska democracy, and by their votes has been chosen, as the following tables show. If the Post considers this a Nebraska triumph, it is either very perverse or very stupid.

A WEDDED MAID.—The Syracuse Standard furnishes the lovers of the romantic with this nice tit-bit:

At Clifton Springs a short time since, a gay party was assembled—among them Miss M., of Buffalo, and Frank N., of Syracuse. In the course of the evening the gaiety began to flag, and some one proposed a marriage. Up springs the gay young Miss M., and expressed a willingness to be the bride. She was followed by Frank N., who joyfully consented to be the groom. A young gentleman present, who sometimes deals in jewelry, and is well known in Syracuse circles, performed the ceremony; and the merry couple made the usual responses.

After the ceremony was over, the groom gave his bride to understand that he considered it binding. She demurred, and started for her home at Buffalo; the baffled bridegroom following, and presenting his claim at the house of her father, he was sent about his business, with some striking specimens of parental indignation from the lady's father. Matters at present are *statu quo*, and the lovely damsel remains a "wedded maid." The gentleman claims her as his lawful wife, and her relatives deny the claim.

The crystal palace directors held a meeting on Friday last, and authorized their president to sell the entire palace and all the property of the association, deliverable on or after the 1st of November next, for one half its actual cost, which is understood to have been about 700,000 dollars.

Competent engineers and architects have decided that the palace could be taken down, removed to the battery, and put up again for \$50,000 or less. Hence it could be taken down, moved to Philadelphia or Boston, and put up there for less than \$75,000, all told.

It is estimated that selling the property of the association even at the great sacrifice proposed, the stockholders will realize from 20 to 30 per cent, allowing that nothing is made the present fall; but, as the receipts at the palace are fully equal to the expenses, it is believed that the extraordinary attractions to be put forth there from this time to the day of its close, on the 1st of November next, and the great influx of strangers expected in our city, who will visit the palace because it will be the last opportunity of seeing it, will return a profit which will benefit the stockholders materially.

Philadelphia and Boston are both agitating the plan of removing the palace to their respective cities. Goods and machinery are coming from the palace daily in considerable quantities, and its present appearance, since the recent thorough renovating which it has undergone, is as attractive and beautiful as at any former period.—N. Y. Express.

MR. NOLTE'S COTTON AT THE BATTLE OF NEW ORLEANS.—On the morning after our retreat from the plantation of Villers, where we had attacked the British on the preceding evening, attempts, as I have already stated, were made to throw up a breast-work along the Maccarty canal. The whole soil in that neighborhood, consists of soft marshy ground, and when you have dug to the depth of three feet, you find nothing but mud and water. Hence, when the effort was made to make an intrenchment around the camp, and to erect the five or six redoubts which were to have been raised along the Maccarty canal, the mininess of the soil rendered all exertions utterly fruitless. A French engineer then suggested to Jackson the idea of filling up the hollowed redoubts with cotton bales, laid to the depth of three or four, one above the other; the wooden platforms which had been dragged from the arsenal could then be placed upon the cotton, and there secured, while the crenellated openings on both sides of the redoubts could be constructed with six or eight bales fastened to the main body of the redoubt by iron rings, and covered with adhesive earth. After the retreat of the English, we heard that they had thought of a similar device; but, as they could find no cotton, they had used the sugar in casks which they had picked up on various plantations. Jackson, who at once adopted the plan, was anxious to lose no time. It was intimated to him that in the city he could procure plenty of cotton at 7 to 8 cents per lb., but that it would take a whole day to bring it to the spot; he was then told that not far from the camp, and in the rear of his position, there lay a bark in the stream laden with cotton, for Havana; the name of this vessel was the *Palmas*, unless my memory, after the lapse of 38 years, deceives me, and she was to have sailed before the arrival of the British. Her cargo consisted of 245 bales, which I had shipped, previous to the invasion, and the remainder, 60 bales, belonged to a Spaniard, named Fernando Alzar, resident at New Orleans. It was only when the cotton had been brought to the camp, and they were proceeding to lay the first bales in the redoubt, that the marks struck my attention, and I recognized my own property. Adj. Livingston, who had been my usual legal counsel, at New Orleans, that same evening inspected battery No. 2, where the men were arranging some bales. It was somewhat vexed at the idea of their taking cotton of the best sort, and worth from 10 to 11 cents, out of a ship already loaded and on the point of sailing, instead of procuring the cheaper kind, which was to be had in plenty throughout the suburbs of the city, at 7 or 8 cents, and said as much to Livingston. He who was never at a loss for a reply, at once answered: "Well, Mr. Nolte, if this is your cotton, you, at least, will not think it any hardship to defend it."

A NEW ENGLAND TOWNSHIP IN IOWA.—The Rev. Josiah Grinnel, late of New York city, with a number of New England people, has purchased thirty or forty thousand acres of land in Iowa, about half way between Davenport and Iowa city, and commenced the work of building an enterprising town, one that shall possess the moral and religious characteristics of New England. The town is named Grinnel, and is within the county of Poweshke.

ONLY A CHILD.—"Who is to be buried here?" said I to the sexton. "Only a child, ma'am." "Only a child! Oh! had you ever been a mother—had you mightily pillowed that little golden head—had you slept the sweeter for that little velvet hand upon your breast—had you waited for the first intelligent glance from those blue eyes—had you watched its slumbers, tracing the features of him who stole your girlish heart away—had you wept a widow's tear over its unconscious head—had your desolate, timid heart gained courage from that little piping voice—had the lonely future been brightened by the hope of that young arm to lean upon, that bright eye for your guiding star—had you never framed a plan or known a hope or fear, of which that child was not part.

If there was naught else on earth left for you to love—if disease came, and its eyes grew dim; and food and rest, and sleep were forgotten in your anxious fears—if you paced the floor hour by hour, with that fragile burden, when your very touch seemed to give comfort and healing to that little quivering frame—had the star of hope set at last—then, had you hung over its dying pillow, when the strong breast you should have wept on was in the grave, where your child was hastening—had you caught alone, its last faint cry for the "help" you could not give, had its last fluttering sigh breathed out on your breast—Oh! could you have said—'Tis only a child!

FINANCIAL PROSPECTS.—We have seen the worst of the panic, though we have not seen yet the last of the fallacies. Stocks, we think, have reached the bottom. The movement of produce will soon give relief to the country banks by taking out their currency. The adjustment of congress is a long desired event. The various appropriations will now throw a large amount of gold into circulation and help greatly to strengthen the mercantile and banking interests of the country. On the whole, there is no good ground for caking; there is, however, wisdom in prudence, in caution—not giving long or large credits—not extending beyond control, for these are revolutionary times, uncertain times, and the wisest cannot see far into the future.—Thompson's Reporter.

EARLY CORN MEAL.—Much to our surprise, our friend, Mr. N. Riker, of Watertown, laid upon our table, on Wednesday last, a small bag of corn meal, just ground from new corn, and also specimens of the corn from which it was made. The 14th of August is very early for corn to ripen enough to grind. The specimens sent had eight rows, of a dark yellow color, shining readily from the cob, and as hard as corn in October. If any Wisconsin farmer can beat Mr. Riker, we would like to hear of it.—Watertown Register.

The Tonawanda (N. Y.) Pilot gives an account of a fearful accident and narrow escape which occurred in that village on Tuesday last. It appears that a child eighteen months old, son of Dr. F. A. Hoyer, was discovered on the railroad track opposite his residence, as the three o'clock train for Lockport came round the curve leading on to the old military road. Every means was used to break up without loss, when the cow catcher caught the child by a portion of its clothing, and threw it some ten feet from the track, without doing it any material injury! The child had not been out of the house five minutes, and was not missed by its mother, until taken in, somewhat stunned by the concussion, the only perceptible injury being a slight bruise on its forehead. The officers on the train deserve the greatest credit for their efforts. The train was stopped and did not proceed until the extent of the injury was fully ascertained.

CHOLERA IN JAIL.—On Sunday night last there were six cases of cholera in the jail. Mr. Conover, the jailor immediately removed them from their places of confinement to the hall, where they were provided with prompt medical attendance, and with all the comforts which the circumstances called for. We understand there were forty prisoners in jail at the time, which is presumed to be more than the building can conveniently accommodate. Ten prisoners were let out on parole.

Last evening, at half past 7 o'clock, Charles Steffenbeger died. Patrick Drum died this morning. Thus only two have died out of six that were taken down with the disease. There have been no new cases to-day. Those that are now sick are considered out of danger.—Mil. News.

Henry A. Wise, who has just been nominated as the locofoco candidate for governor of Virginia, says he is in favor of the Nebraska bill because it "repals the Missouri compromise and fortifies slavery." That was the purpose of the swindle, and for that reason it deserves and is receiving the execration of the people. Nevertheless, its ultimate effect may be very different from what its authors designed. If Kansas shall be saved to freedom—as it may be—and if Nebraska shall, as is quite probable, become a free state by general consent, slavery will have been but miserably "fortified" by this outrageous enactment. The encouragement of free emigration to Kansas is now the great leading practical duty of the north. If this duty is effectually discharged the discomfited propagandists will howl with rage in less than a twelvemonth.—At. Jour.

The Sentinel makes the result of the recent election in Missouri, (excepting the defeat of Benton,) a theme of special glorification. Six out of seven representatives of that state, says the Sentinel, are whigs—a "glorious victory." But still it disguises the fact that every one of the congressmen, elect, is a very decided advocate of the principles embraced in the Nebraska bill.—Daily News.

Such is not the fact. On the contrary, two at least of the whig congressmen elected, Porter and Lindley, are very decided opponents of the principles of the Nebraska bill. We do indeed hail their election as a "glorious victory"—the rest we are content to call an administrative defeat.—Mil. Sent.

THE MILLERITE DELUSION.—The Salem Gazette says: "The sect of Millerites, worshipping in this city, who hold that Christ will come to judge the world before the year 1854 expires, have made quite a number of converts, and baptised them, within the last few months. A gentleman who has held an important office in our community, within a year or two, was baptised on Sunday last.

THE MARKETS.

THE undersigned having closed up the affairs of their late firm, are now engaged as the wholesale and retail agents for the following houses, manufacturing Organs, Melodeons and Seraphines. Charles Austin, Boston & Co., New York; Mason & Harbottle, Warren & Co., New York; Ingalls & Crockett, Prescott & Bro's, New York. Any instrument made by the above firms we will furnish at the manufacturer's price and fully warranted. If it does not prove good, it can be exchanged who no terms cash or approved notes on three or four months. JOHN F. PEASE & CO., Janesville, Wis. Boston, Aug. 15, 1884. au22-3w4d

Something New!!
MR. CHARLES AUSTIN, the celebrated Reel maker has just completed his new Organ Reel, upon which he has labored for the last five years and expended more than six thousand dollars. This reel differs from all others in its construction, being much larger and having more power. It is intended for Church and Parlor Organs as manufactured by Messrs. Austin & Co. These Organs have an upright (Organ) action and are of the shape of all Church Organs. The price will range from \$175 to \$300, depending upon the finish of the case. To churches in want of an instrument of that value we would say that they have more power than any common Organ of the kind.
J. F. Pease & Co., Janesville, Wis. are interested in the manufacture and sale of these instruments, and are the only persons through whom they can be had. They will have a large stock on hand for sale as early as Sept. 15, and after that a good assortment in as soon as they can be manufactured.

JANESVILLE : : : WISCONSIN.
THURSDAY MORNING, AUG. 24, 1854.

ROCK COUNTY REPUBLICAN CONVENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 18th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. M., to nominate a county ticket.

The towns and wards will be entitled to representation in the county convention as follows:—to wit:

Town or Ward	Representatives
Aven, 10	1st ward 4
Beloit, 10	2d ward 4
Brookfield, 10	3d ward 4
Clinton, 10	4th ward 4
Fulton, 10	5th ward 4
Harmony, 10	6th ward 4
Johnston, 10	7th ward 4
La Prairie, 10	8th ward 4
Janesville, town, 10	9th ward 4
Turtle, 10	10th ward 4

L. P. HARVEY, J. H. BUD, J. H. COLLETT, G. H. WILLISTON, A. H. HOSKINS, PETER SCHMITZ, E. VINCENT, County Committee.

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Town, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad, La Crosse, Monroe, Polk, Buffalo, St. Croix, Douglas and La Pointe, who are opposed to the Nebraska inquiry, and in favor of the principles announced in the "Republican" platform adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 13th of September, at 12 o'clock P. M., to nominate a candidate to be supported at the approaching election. By order of the state central committee, WM. A. WHITE, Chairman.

Madison, August 14.

Assembly District Conventions—Rock County.

THE ELECTORS of Rock county who are opposed to the Nebraska inquiry and in favor of the principles announced in the Republican platform adopted at Madison, July 18th, are requested to meet in MASS CONVENTION at the places designated below in their respective Assembly Districts, on THURSDAY, 5th of September next, at 2 o'clock P. M., and select two delegates from each Assembly District to represent them in the Congressional Convention called at Mineral Point on the 13th of September. The Convention for the

Janesville, &c., District is appointed at the Court House in Janesville.
Beloit, &c., District, at the office of Samuel Humeau Esq. in the new Hotel building, Beloit.
Milton, &c., District, at Johnson's Hotel, Johnston Centre.
Newark, Union, &c., District, at Clapp's Hotel, Spring Valley Corners.
Every elector who desires a true man to represent this District in the National Legislature, should feel an interest in promoting a full attendance at the Mass Conventions and in securing a full representation from his District in the Congressional Convention.

MEMPHIS MONEY.—As some of this money is afloat in this vicinity, and fears are entertained that holders will suffer loss by it, we publish the following from the New York Journal of Commerce of Thursday last. We know nothing of the pecuniary responsibility of the bank, and persons holding its notes will judge for themselves as to the policy of disposing of them at a material discount. Still, we think we should hold on for a while, and see whether it will be necessary to sell at much of a loss.

"The Farmers' and Merchants' Bank of Memphis, which has had some credit in this vicinity, owing perhaps to the presence of the president, is in trouble. Mr. John Thompson refused to purchase its bills at any price, this afternoon, as the writer hereof can testify, having made application at his counter. It appears that the bank has been in the habit of loaning its bills to the Wisconsin and Indiana banks for circulation, they agreeing each to protect its own share of the issues. This compact some of them have not kept, and quite a batch were returning here for redemption, and found the agent somewhat unprepared. We have no doubt but the agency will be going again in a few days, and the holders of the notes, if there are such who read our paper, had better not sacrifice them. We do not mean to say that payment has been stopped at the counter of the Bank, in Memphis, Tenn., and we suppose that all the bills presented there will be duly honored."

CHILD KILLED ON THE RAILROAD.—The Milwaukee Sentinel of yesterday gives the particulars of an accident near Eagle, resulting in the death of a little girl about 14 years old, by being run over by a railroad train. The train was a heavy one and the girl was in the centre of the track. She was deaf and dumb and was not seen by the engineer until the train was too close to be effectually stopped. Her father resides at Eagle and had sent her to the store in returning from there she was killed.

WHO WOULDN'T BE A FATHER.—The Utica Telegraph, of Thursday evening, contains the following brief but ominous paragraph: "Ha! ha! ha! It's a girl!"

THE ISSUE FAIRLY OFFERED.—In Illinois, where the "democracy" feels itself able to carry out its designs without disguise or equivocation, no attempt is made to dodge or deny the issues growing out of the Nebraska bill. Here the gauntlet is openly thrown down, and the opponents of the perfidy which has aroused the country are tauntingly defied to take it up. This brings the contest to its right bearings, and if the authors and abettors of that perfidy are sustained, we shall know precisely what the result means, and the party thus openly entering the field will be fairly entitled to the benefits of the victory. So, too, if the defiant party is beaten, and its chosen leaders stricken down, there can then be no attempt to attribute its defeat to other causes than those which led to its downfall. In this view, we record with much satisfaction the proceedings of the convention which re-nominated Col. Richardson, who, as chairman of the territorial committee in the house of representatives, reported and carried the Nebraska bill to its passage. These proceedings are thus given by the Pittsburg Union:

Yesterday (16th inst.) about 10 o'clock the convention assembled and organized. At that time there were only three names before the convention—Richardson, Morris and Richardson. In the afternoon they met, and these three gentlemen, together with Dr. Stuppis, were put in nomination. The latter gentleman, and also Mr. Morris immediately arose and declined running—thus leaving a clear field to Richardson and Richardson. Col. Richardson was nominated on the first ballot, receiving 74 votes, and his competitor 15. We design our next to publish the proceedings in full. We have only room and time now to say that the deliberations of the convention were very harmonious. Morris immortalized himself by the self-sacrificing spirit which he exhibited. The convention endorsed the Nebraska question in all its length and breadth. We now, and here, again throw down the gauntlet to the Nebraska glove, and dare the whig leaders and whippersnappers to take it up.—They have boasted they could beat us to death on the Nebraska question. We hope their valor will not now forsake them; but that they will present a bold front and meet us like men, on the stump, and in the public journals. Let them now make good their assertions, or else swallow their words.

The Milwaukee Sentinel has not yet learned the name of the Valley railroad, though it has been talking about it for years. Gauged by its accuracy as to the name, the Sentinel's minute information as to its affairs must be very reliable.

The New York Tribune recommends the election of Fred Douglas as the successor of Gerrit Smith, in the Oswego and Madison congressional district. This is a high compliment to Mr. Smith, and we presume he will so regard it. The electors of that district will probably feel equal to the task of judging for themselves in the matter; and if they have no white man fit for the place, may prefer a negro of their own, instead of going to Monroe county for one.—Buff. Com. Adv.

If the choice lay between Fred and Stephen A. Douglass, we should have no hesitation in taking the former, and we are not sure that the election of Fred, in any case, would be a well deserved rebuke to the "democracy," for their rascality and folly in outraging and defying the sentiment of the entire north.

RAILROAD COMBINATIONS.—We understand that the Michigan Southern and Michigan Central railroads have entered into a combination to disperse with the services of agents and runmen. The offices of the two companies in this city will be closed immediately, and passengers must purchase their tickets on the boats, or at the ticket offices in Chicago.—Wfs.

A similar change is in contemplation with the offices of the Michigan roads in this city; but Mr. Goodwin, the ticket agent of the Chicago and Galea road, will sell tickets for either the Central or Southern route. This arrangement, we understand, is in accordance with the decision of the New York railroad meeting, and is designed to lessen the expenses of the roads represented and acting in that meeting. All runners are to be dispensed with. Mr. Goodwin has his office at the American Hotel, to which house the stage office for this city has been removed.

THE ALGERINES.—The exhibition at Apollo Hall Tuesday evening well repaid those who attended. Another will be given this evening, with a change of performance, not the least attractive of which will be the promised supply of ice cream, from nothing. If this feat is successfully accomplished, we suggest to Mr. Francis that he try his hand at a change of the weather, and the production of a good cooling shower of rain. We will find no fault at a deception in this matter, if it is as well executed as the remainder of his feats.

ARCHBISHOP HUGHES.—The Saratoga correspondent of the New York Times, writes: Archbishop Hughes is here, but is too late for congress water to renew his youth. He will soon go the way of all living. He is a sensible and very shrewd looking man.

ARRIVAL.—Kenyon's new hats arrived yesterday, and are now ready for purchasers.—They are a No. 1 article.

DEMOCRACY IN CINCINNATI.—We published, a day or two since, the resolutions of the democracy of the Third ward in Cincinnati, condemning in strong terms the Nebraska inquiry. Since the passage of those resolutions, the county convention has been held, and from the published proceedings, we should judge that it broke up in the wildest disorder. Charles Remelin, a German democrat, one of the chief ornaments of the party in Ohio, a high minded, consistent and honorable man, and a republican, was chased from the ground, by a band of ruffians, who have determined that free discussion of the great question now before the people, shall be stifled, if necessary, by violence. One thing however, the delegates did not dare to endorse—that is Douglas's Nebraska bill. Carry on gentlemen! The day of reckoning is not far off!—Galena Jeffersonian.

MARRIAGE IN IRELAND.—The fourth report of the register general of marriage in Ireland, has just been published in a parliamentary paper. It appears that in 1853 there was 10,197 marriages in Ireland, 1,255 widowers, and 700 widows re-married.

THE commonwealth thinks it doubtful whether Mr. Porter of Missouri, will vote to restore the Missouri compromise. Unless the commonwealth knows better than that gentleman, himself, there is no doubt whatever on this point. Mr. Porter, on the stump, publicly declared himself in favor of its restoration, and was on that account deserted by a few of the pro-slavery whigs and supported by the anti-Nebraska democrats.—Boston Atlas.

The Atlas also replies to a paragraph in the Post, as follows:

The Post is slightly exercised, because, as it states, some of the whig papers omit to mention that Mr. Lindley voted for the Nebraska bill. The Post itself is guilty of a yet more serious omission in not stating that Mr. L. publicly declared himself opposed to the Nebraska bill, that the only vote for it in the belief that he reflected the wishes of his constituents, and that he would vote against it if but a single whig from Missouri would vote with him. On account of his known personal repugnance to the outrage, he received the support of the anti-Nebraska democracy, and by their votes has been chosen, as the following tables show. If the Post considers this a Nebraska triumph, it is either very perverse or very stupid.

A "WEDDED MAIN."—The Syracuse Standard furnishes the lovers of the romantic with this nice tit-bit:

At Clinton Springs a short time since, a gay party was assembled—among them Miss M. of Buffalo, and Frank N., of Syracuse. In the course of the evening the gaily began to flag, and some one proposed a marriage. Up springs the gay young Miss M., and expressed a willingness to be the bride. She was followed by Frank N., who joyfully consented to be the groom. A young gentleman present, who sometimes deals in jewelry, and is well known in Syracuse circles, performed the ceremony; and the merry couple made the usual responses. After the ceremony was over, the groom gave his bride to understand that he considered it binding. She demurred, and started for her home at Buffalo; the baffled bridegroom following, and presenting his claim at the house of her father, he was sent about his business, with some striking specimens of parental indignation from the lady's father. Matters at present are in statu quo, and the lovely damsel remains a "wedded maid." The gentleman claims her as his lawful wife, and her relatives deny the claim.

The crystal palace directors held a meeting on Friday last, and authorized their president to sell the entire palace and all the property of the association, deliverable on or after the 1st of November next, for one half its actual cost, which is understood to have been about 700,000 dollars.

Competent engineers and architects have decided that the palace could be taken down, removed to the battery, and put up again for \$50,000 or less. Hence it could be taken down, moved to Philadelphia or Boston, and put up there for less than \$75,000, all told.

It is estimated that selling the property of the association even at the great sacrifice proposed, the stockholders will realize from 20 to 30 per cent, allowing that nothing is made the present fall; but, as the receipts at the palace are fully equal to the expenses, it is believed that the extraordinary attractions to be put forth there from this time to the day of its close, on the 1st of November next, and the great influx of strangers expected in our city, who will visit the palace because it will be the last opportunity of seeing it, will return a profit which will benefit the stockholders materially.

Philadelphia and Boston are both agitating the plan of removing the palace to their respective cities. Goods and machinery are being taken into the palace daily in considerable quantities, and its present appearance, since the recent thorough renovating which it has undergone, is as attractive and beautiful as at any former period.—N. Y. Express.

MR. NOLTE'S COTTON AT THE BATTLE OF NEW ORLEANS.—On the morning after our retreat from the plantation of Villere, where we had attacked the British on the preceding evening, at ten o'clock, a French engineer then suggested to Jackson the idea of filling up the hollowed redoubts with cotton bales, laid to the depth of three or four, one above the other; the wooden platforms which were to sustain the heavy cannon which had been dragged from the arsenal could then be placed upon the cotton, and there secured, while the crenelated openings on both sides of the redoubt could be constructed with six or eight bales fastened to the main body of the redoubt by iron rings, and covered with adhesive earth. After the retreat of the English, we heard that they had thought of a similar device; but, as they could find no cotton, they had used the sugar in casks which they had picked up on various plantations. Jackson, who at once adopted the plan, was anxious to lose no time. It was intrusted to him that in the city he could procure plenty of cotton at from 7 to 8 cents per lb.; but, that it would take a whole day to bring it to the spot; he was then told that not far from the camp, and in the rear of his position, there lay a bark in the stream laden with cotton, for Havana; the name of this vessel was the Pallas, unless my memory, after the lapse of 38 years, deceives me, and she was to have sailed before the arrival of the British. Her cargo consisted of 245 bales, which I had shipped previous to the invasion, and the remainder, 60 bales, belonged to a Spaniard, named Fernando Alzar, resident at New Orleans. It was only when the cotton had been brought to the camp, and they were proceeding to lay the first bales in the redoubt, that the marks struck my attention, and I recognized my own property. Adjt. Livingston, who had been my usual legal counsel at New Orleans, that same evening inspected battery No. 3, where the men were arranging some bales. I was somewhat vexed at the idea of their taking cotton of the best sort, and worth from 10 to 11 cents, out of a ship already loaded and on the point of sailing, instead of procuring the cheaper kind, which was to be had in plenty throughout the suburbs of the city, at 7 or 8 cents, and said as much to Livingston. He who was never at a loss for a reply, at once answered: "Well, Mr. Nolte, if this is your cotton, you, at least, will not think it any hardship to defend it."

THE MILLERITE DELUSION.—The Salem Gazette says: "The sect of Millerites, worshipping in this city, who hold that Christ will come to judge the world before the year 1854 expires, have made quite a number of converts, and baptised them, within the last few months. A gentleman who has held an important office in our community, within a year or two, was baptised on Sunday last.

A pump has been invented by Henry Rogers, of Addison, Vt., which beats anything we have yet seen in the line of simple but efficient pumps. By this pump the animal which desires to drink must raise its own water. The improvement consists in placing a cylinder, fitted with a piston, at the bottom of the well, the piston rod being hollow, and connected with a basin and amovable platform at the top. The animal approaches and steps upon the platform, causing it to sink a few inches, which pushes down the piston rod into the well, the piston rod being hollow, and connected with a basin and amovable platform at the top. THE NEW ENGLAND TOWNSHIP IN IOWA.—The Rev. Josiah Grinnel, late of New York city, with a number of New England people, has purchased thirty or forty thousand acres of land in Iowa, about half way between Davenport and Iowa city, and commenced the work of building an enterprising town, one that shall possess the moral and religious characteristics of New England. The town is named Grinnel, and is within the county of Poweshke.

ONLY A CHILD.—"Who's to be buried here?" said I to the sexton. "Only a child, ma'am." Only a child! Oh! had you ever been a mother—had you nightly pillowed that little golden head—had you slept the sweeter for that little velvet hand upon your breast—had you waited for the first intelligent glance from those blue eyes—had watched its slumbers, tracing the features of him who stole your girlish heart away—had you wept a widow's tear over its unconscious head—had your desolate, timid heart gained courage from that little piping voice to wrestle with the jostling crowd for daily bread—had its loving smiles and prattling words been sweet recompense for such sad exposure—had the lonely future been brightened by the hope of that young arm to lean upon, that bright eye for your guiding star—had you never flamed a plan or known a hope or fear, of which that child was not part.

If there was taught else on earth left for you to love—if disease came, and its eyes grew dim; and food and rest, and sleep were forgotten in your anxious fears—if you paced the floor hour by hour, with that fragile burden, when your very touch seemed to give comfort and healing to that little quivering frame—had the star of hope set at last—then, had you hung over its dying pillow, when the strong breast you should have wept on was in the grave, where your child was hastening—had you caught alone, its last faint cry for the "help" you could not give, had its last fluttering sigh breathed out on your breast—Oh! could you have said—"This only a child!"

FINANCIAL PROSPECTS.—We have seen the worst of the panic, though we have not seen yet the last of the failures. Stocks, we think, have reached the bottom. The movement of produce will soon give relief to the country banks by taking out their currency. The adjustment of congress is a long delayed event. The various appropriations will now throw a large amount of gold into circulation and help greatly to strengthen the mercantile and banking interests of the country. On the whole, there is no good ground for complaining; there is, however, wisdom in prudence, in caution—not giving loose or large credits—not extending beyond control, for these are revolutionary times, uncertain times, and the wisest cannot see far into the future.—Thompson's Reporter.

EARLY CORN MEAL.—Much to our surprise, our friend, Mr. N. Eker, of Watertown, laid up on our table, on Wednesday last, a small bag of corn meal, just ground from new corn, and also specimens of the corn from which it was made. The 14th of August is very early for corn to ripen enough to grind. The specimens sent had eight rows, of a dark yellow color, shelling readily from the cob, and as hard as corn in October. If any Wisconsin farmer can beat Mr. Eker, we would like to hear of it.—Watertown Register.

The Tonawanda (N. Y.) Pilot gives an account of a fearful accident and narrow escape which occurred in that village on Tuesday last. It appears that a child eighteen months old, son of Dr. F. A. Hoyer, was discovered on the railroad track opposite his residence, as the three o'clock train for Lockport came round the curve leading on to the old military road. Every means was used to break up without full success, when the cow catcher caught the child by a portion of its clothing, and threw it some ten feet from the track, without doing it any material injury! The child had not been out of the house five minutes, and was not missed by its mother, until taken in, somewhat stunned by the concussion, the only perceptible injury being a slight bruise on its forehead. The officers on the train do not deserve the greatest credit for their efforts. The train was stopped and did not proceed until the extent of the injury was fully ascertained.

CHOLERA IN JAIL.—On Sunday night last there were six cases of cholera in the jail. Mr. Conover, the jailer immediately removed them from their places of confinement to the hall, where they were provided with prompt medical attendance, and with all the comforts which the circumstances called for. We understand there were forty prisoners in jail at the time, which is presumed to be more than the building can conveniently accommodate. Ten prisoners were let out on parole.

Last evening, at half past 7 o'clock, Charles Stollbueger died. Patrick Drum died this morning. Thus only two have died out of six that were taken down with the disease. There have been no new cases to-day. Those that are now sick are considered out of danger.—Mil. News.

Henry A. Wise, who has just been nominated as the lococo candidate for governor of Virginia, says he is in favor of the Nebraska bill because it "repels the Missouri compromise and fortifies slavery." That was the purpose of the swindle, and for that reason it deserves, and is receiving the execration of the people. Nevertheless, its ultimate effect may be very different from what its authors designed. If Kansas shall be saved to freedom, as it may be—and if Nebraska shall, as is quite probable, become a free state by general consent, slavery will have been but merely "fortified" by this outrageous enactment. The encouragement of free emigration to Kansas is now the great leading practical duty of the north. If this duty is effectually discharged the discomfited propagandists will howl with rage in less than a twelvemonth.—At. Jour.

The Sentinel makes the result of the recent election in Missouri, (excepting the defeat of Benton,) a theme of special glorification. Six out of seven representatives of that state, says the Sentinel, are whigs—a "glorious victory." But still it disguises the fact that every one of the congressmen, elect, is a very decided advocate of the principles embraced in the Nebraska bill.—Daily News.

Such is not the fact. On the contrary, two at least of the whig congressmen elected, Porter and Lindley, are very decided opponents of the principles of the Nebraska bill. We do indeed hail their election as a "glorious victory"—the rest we are content to call an administrative defeat.—Mil. Sent.

THE MARKETS.

JANESVILLE, WEDNESDAY EVENING, AUG. 23. Prices have fluctuated a good deal to-day, and the market closed at lower rates than the morning. But one load of inferior winter wheat came in, and that sold at a lower figure than a good article would have commanded. Oats may be quoted at 1.13 to 1.23%; Corn, 47a50; Barley, 48a50; Oats 24.

MILWAUKEE, WEDNESDAY MORNING, AUG. 23.—Wheat, winter, 1.80a1.87; club, —; common spring, 1.20a1.25; Rye, 70a80; Oats, 20a31; Barley, 58a58; Corn, 57a58.

CHICAGO, THURSDAY MORNING, AUG. 22.—Flour 7.25a7.75; Wheat, winter, 1.80; spring 95a1.10; Corn 56a60; Oats, 21a25; Rye, 60a62.

AGRICULTURAL NOTICE.

The regular quarterly meeting of the Rock County Agricultural Society and Mechanic's Institute, will be held at the Apollo Hall in the city of Janesville, on Monday the fourth day of September next, at ten o'clock A. M. Essay by J. A. Fletcher, Esq. of Johnston.

TRUSDELL, JORDAN & BENNETT, Attorneys at Law. Having completed an accurate abstract of the TITLE, TAX and JUDGMENT RECORDS of Rock County, are prepared to furnish full and reliable information respecting the ownership of Real Estate in said county, and all liens on such estate by Judgment, Mortgage or otherwise.

They will attend to the purchase and sale of Real Estate, the negotiation of Loans, payment of Taxes, and the redemption of land from Tax Sales, and generally to all such business as properly belongs to a REAL ESTATE OFFICE.

Business in the courts of this and the adjoining counties will be promptly attended to. Office—Second Story of Empire Block. Janesville, Wis., May 23rd, 1851.

DIED. At Emerald Grove, Rock county, Wis., on Monday morning, August 14th, Mrs. F. AUGUSTA, wife of H. C. Johnson, aged 18 years. Also, on Tuesday evening, Aug. 15th, Mrs. R. MARIA, wife of J. D. Tracy, aged 19 years.

The above were daughters of A. S. Wood, formerly of Lyons, N. H. They were called to their eternal rest after short and severe sickness, but they yielded up their lives with cheerfulness and Christian hope to him who gave it. Our loss is their great gain.—[Con. Editors of Vermont and New Hampshire papers please notice.]

KILMER'S ROCK OIL,
FROM A Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of common value, as well as a different thing from the oil of Kentucky or American Oil, as it is used EXTERNALLY, as well as internally. As a local remedy, it is used in Rheumatism, Neuralgia, Headache, Toothache, etc., as well as a valuable External Remedy for Piles, Hemorrhoids, Scalds, Burns, Erysipelas, etc. It is used in the treatment of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains, etc. It invites the investigation of Physicians, as well as the suffering patient, to become acquainted with its merits.
Discovered in 1849, it has within 5 or 6 years, made multitudes of cures, and multitudes of friends, and as soon as tried the Sales will not increase but will grow. Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.
IT CURES THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is also a powerful and mild purgative.
A leading principle in it is *Naphtha*. When you once have it in the family you will not be without it.
Full as the world is of Patent Medicines, it is thought not best to suppress this, the work of NATURE, and make room for *Human Inventions*. Price 50 cents per bottle. It can be had of wholesalers at the large cities, and terms in the West at Wholesale, at the following prices:
HAVE WE ACQUAINTED US?—a tea spoonful every three hours in the absence of the fever will cure you of Ague or Biliousness. Physicians, Druggists, and all friends of the afflicted, will be interested in this Oil for *TROPHIC* and *INTERNAL* use, and will be interested in the usual dose of 3 or 4 times a day, and bathe the lower part of the back with it. Have you SCORFUS? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

DR. J. B. MARCHESI'S
CELEBRATED CATHOLICON,
FOR THE RELIEF AND CURE OF SUFFERING FEMALES.
It stands pre-eminent for its curative powers in all the diseases for which it is used, and is usually called
Female Cathartic.
Of these are Prolapsus Uteri or falling of the womb; Chronic Inflammation of the Uterus; Menstrual Disorders; or Flooding; Pains of the Uterus; and all the accompanying evils. (Cancer excepted.) no matter how severe, or of how long standing.
The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition. Let all interested call, and obtain a pamphlet (free) containing ample proof from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, and its use in their practice, and speak from their own observations.

Of Boston, Mass., Chartered in 1843.

Capital and accumulation, \$650,000.
THIS Company is one of the oldest.

and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be peculiarly interested in the company, and they give to their personal affairs and business the same security as they give to the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of their debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers) household furniture, grain in barns, live stock, etc., from one to five years, at lower rates than any other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less liable to loss than if they were to insure with any other company, and such insurance will have no losses upon your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been in business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

CHIP'S
CELEBRATED WORMWOOD CORDIAL.

THE subscriber in introducing this valuable temperance beverage, would respectfully call the attention of the public to the fact, that it is prepared from green Wormwood, an herb that grows luxuriantly in the New England States, the medicinal qualities of which, for the regulation of the stomach and blood, cannot be equaled by anything ever used. It is a sure cure and preventive of Fever, Ague, Dyspepsia, Diarrhea, and all diseases arising from impurities in the blood or impurities of the stomach. Try it.

WHO WOULDN'T BE A FATHER.—The *Union Telegraph*, of Thursday evening, contains the following brief but ominous paragraph:
 Ha! ha! ha!!! "It's a girl."

MARRIAGE IN IRELAND.—The fourth report of the register general of marriage in Ireland, has just been published in a parliamentary paper. It appears that in 1858 there was 10,197 marriages in Ireland, 1,265 widowers, and 700 widowers re-married.

A NEW ENGLAND TOWNSHIP IN IOWA.—The Rev. Josiah Grinnel, late of New York city, with a number of New England people, has purchased about thirty or forty thousand acres of land in Iowa, about half way between Davenport and Iowa city, and commenced the work of building an enterprising town, one that shall possess the moral and religious characteristics of New England. The town is named Grinnel, and is within the county of Poweshiek.

A pump has been invented by Henry Rogers, of Addison, Vt., which heats anything we have yet seen in the line of simple but efficient pumps. By this pump the animal which desires to drink must raise its own water. The improvement consists in placing a cylinder, filled with a piston, at the bottom of the well, the piston rod being hollow, and connected with a basin and a moveable platform at the top. The animal approaches and steps upon the platform, causing it to sink a few inches, which pushes down the piston rod into the basin. After the animal has drank, the water flows back to the well, so that it can never freeze. We derive these facts from the *Barnes's Journal*.
